

## IPv6 Ready Logo Committee of IPv6 Forum

# IPv6 Ready Logo Certified

The Products shown in below are approved as IPv6 Ready Logo<sup>i</sup> Phase-2. IPv6 Ready Logo is the international program for IPv6 product's certification that is managed by IPv6 Ready Logo Committee of IPv6 Forum, and the program provides tests and certification of conformance and interoperability between ipv6 products. It means these products(which Support RFC1981, 2460, 4291, 4443, 4861, 4862, 5095) have high-level quality of conformance and interoperability for IPv6.
