Huawei Micro DC

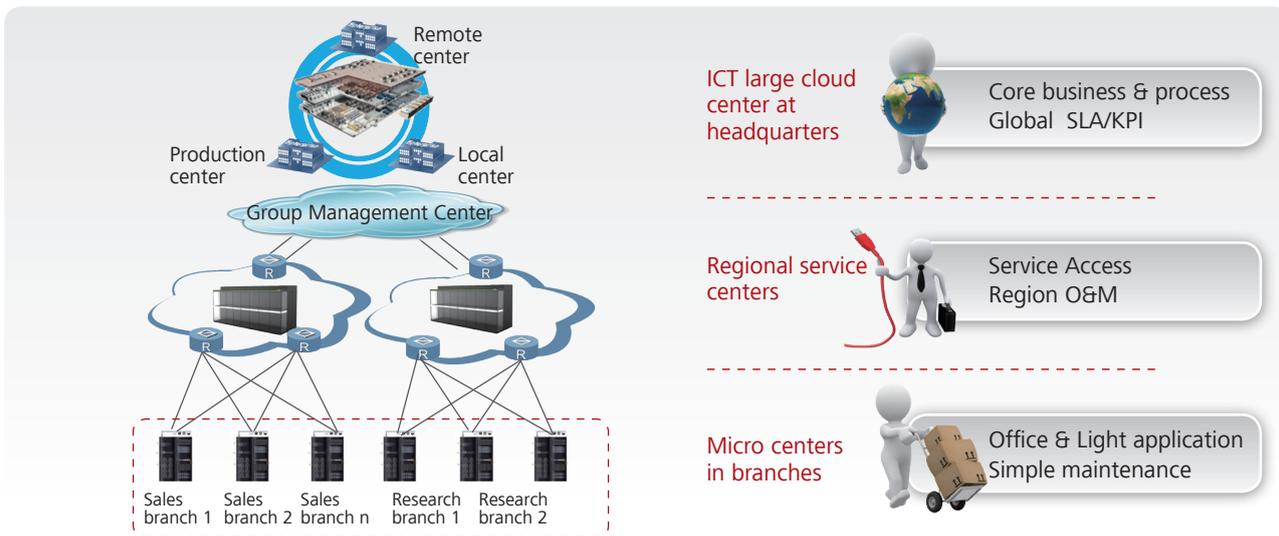

— Simplified, Open, "Lights-out" Management

HUAWEI TECHNOLOGIES CO., LTD.

Group Data Center Concept

With the development and maturity of the information age, enterprise's operation and rapid expansion have been unable to run efficiently without the support of ICT system. For large and medium-sized group enterprises, the traditional ICT systems of their branches face challenges such as: without unified planning and standard architecture, hard to purchase, deploy and maintenance because of various vendors, can not be unified and remotely managed in the headquarter, etc. Group Enterprise in Cloud Era will be: Converged service, Simplified branches.

Huawei Micro DC Architecture

Huawei Micro DC is a one-stop data center solution for branches with the design concept of simplified, open and "lights-out management". It incorporates the capacity of facilities integration, computing and storage, routing and switching, security and VPN, WAN and WLAN access, enterprise common applications such as VOIP, print and file server, etc. All of these are pre-integrated so that delivery and deployment become very fast and convenient. Especially, Huawei ManageOne Micro DC Management Suite can unified monitor and manage ambient facility environment and ICT infrastructures of all the branch Micro DCs, which makes the branches realize "Lights-out" management.

Solution Highlights

Simplified

- Rapid deployment, pre-install & optimize hardware and software, 3 hours service online
- APP template and wizard improve the deployment efficiency
- Huawei provides unified spare parts and services

Open

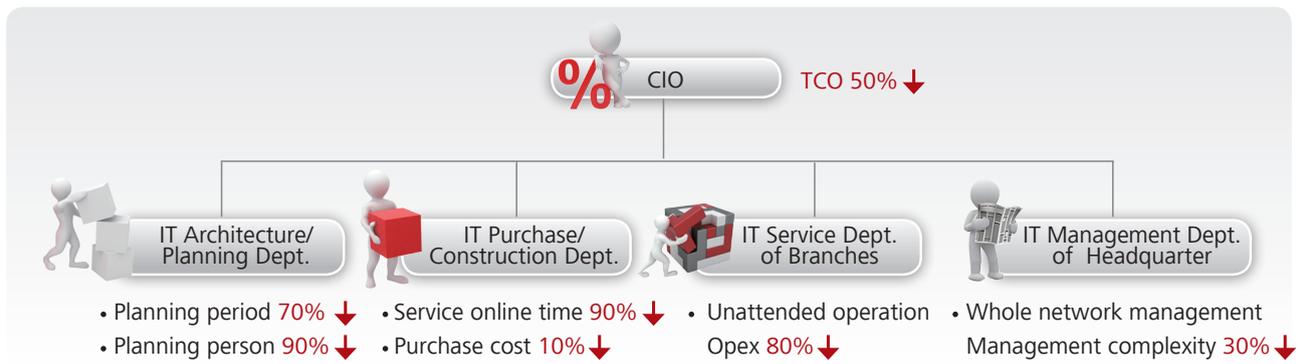

- Standardized ICT planning and construction for branches
- Provide OAVDI/VOIP/file sharing applications
- Flexibly support applications for various industries and scenarios

Lights-out Management

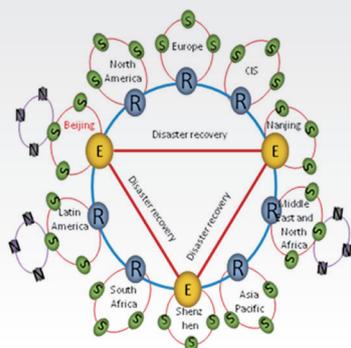

- Multi-system unified management in headquarter
- Unified management of facilities and ICT infrastructures
- Automatically & safely shutdown when power off and start when power on

Customer Benefits

Huawei Micro DC solution saves TCO of the group enterprise 50%, and branches' ICT will be more efficient and convenient by wireless access, etc.

Successful Cases

Micro DC helps Huawei standardize IT systems worldwide

A total of 50 Micro DCs have been rapidly deployed in SRs and NRs in 2012 and unified managed in headquarter.

China Jingye Corporation: Singapore Branch

Micro DC provides a one-stop ICT solution: facilities, ICT infrastructure, Email/File Management/VDI/UCC, and interconnected with China headquarter.
